
MY PROFILE

Robert Bloxham

After many years living in inner-suburban areas, Robert, along with his wife and children, moved into the local area looking for a change in lifestyle. They found it in the hills of Bedforddale more than ten years ago and have happily lived there ever since.

Robert has an eye for quality as well as value and credits this to his father, who was a builder of fine homes. When Robert developed a passion for Real Estate in the early 2000's, he found that this eye for quality and value served him well, particularly when it came to identifying good investments.

In addition to this, Robert's previous employment saw him garner extensive experience in negotiation and communication experience while working as an analyst and manager throughout the Wholesale, Retail, Distribution and Information Technology industries.

Together these provide him with the ideal skill set to act as an agent who can ensure his customers obtain the very best outcome in the sale of their home or investment property. In delivering these outcomes, it is Robert's aim to provide you with reliable local market information, valuable advice, professional guidance and timely communications.

Outside of work, Robert has a passion for family, performance motor vehicles and travel.

Testimonials

I wish to thank O'Neil Real Estate and in particular, Robert Bloxham, for the excellent service provided. Rob sold the property within one week of the listing, and over the following weeks to finance and settlement dates, completed the sale in a professional manner. I have no hesitation in recommending Rob to any persons selling or buying property.

Betty

12 Waratah Drive was not just a 'House for Sale', it was our Home of 44 years. The decision to sell was not easy for us, from our first meeting we felt he listened and understood how we felt about our home. Robert informed us every step along the way as to what was happening, every question we had, every phone we call we made to him was answered. Robert was professional, respectful and at all times we felt he was working for the best outcome for us. We just 'watched it happen' because we had a fantastic agent that 'made it happen'.

Bev & Phill

I recently sold my first house in Camillo through O'Neil Real Estate. I chose Robert Bloxham as he had quite a few homes around my area. I was amazed how down to earth and straight forward he was to deal with the whole process. A daunting time made very easy and in just over a month my house was under offer for my asking price. I'd strongly recommend using Robert Bloxham as your local agent.
